Scenic Beauty Award - NOMINATION FORM

Each year, Citizens for Scenic Wisconsin recognizes individuals and organizations that have made a special effort to protect or enhance the quality of our visual environment. Past recipients include government agencies that have implemented programs to preserve and protect our scenic Wisconsin, individuals that have maintained rural landscapes and volunteer organizations that have beautified their urban communities.

If you are aware of an individual, business, volunteer group or government agency that has made a positive impact on our scenery, please submit a nomination. You can use this form or send a letter or email with a brief narrative detailing the nominee's scenic efforts and include pictures (digital preferred).

The following criteria will be used in deciding awards, *but nominees do not have to meet all four criteria:*

1. Impact on the attractiveness of the State of Wisconsin
2. Potential to be used as a model by others
3. Uniqueness
4. Effort relative to size of the organization

The nomination deadline is August 1st.
